

A slightly more compact office chair with high comfort

The 5000 task chair is very comfortable to sit in, has an attractive design and well thought-out ergonomics. It's slightly smaller than our other task chairs, making it easy to place in different work situations or meeting contexts.

The 5000 has an appealing Scandinavian design with simple lines. The functions were developed to ensure the ultimate in ergonomics. Synchrone™ is a mechanism that allows the seat and backrest to move in a soft and balanced way in relation to each other, and is ideal for users who want active and controlled sitting. The level of resistance is adjusted manually and the seat can be tilted forward and locked in the desired position. Even when the chair's tilt is locked, there's a flexible dynamic in the backrest.

Sitting height, seat depth and backrest height are adjustable and SafeBack is standard. The chair also features Nozag springs for increased comfort. Vary the chair's design and adapt it to different spaces by choosing among all the quality-assured fabrics in Kinnarps Colour Studio.

Functions & options

LOCKABLE TILT

The tilt is easily locked with a lever on the right-hand side. Even when the chair's tilt is locked, there's a flexible dynamic in the backrest.

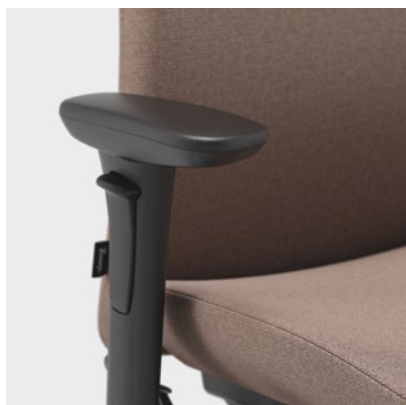

SAFEBACK

Guarantees a safe return to an upright position when the chair is locked in a reclining position.

SYNCHRONE

Synchrone is a tilting mechanism that allows the seat and backrest to move in a soft and balanced way in relation to each other.

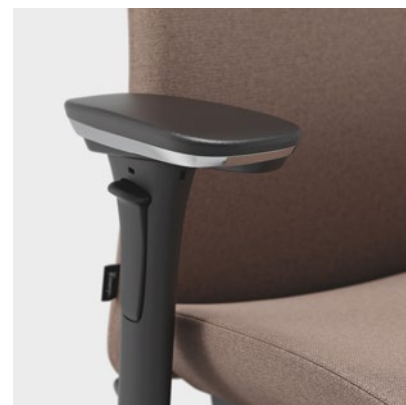

2D ARMREST

Soft armrest that is height and width adjustable.

4D ARMREST

Extra soft armrest that is four-way adjustable (height, width, depth and angle).

4D ARMREST WITH POLISHED DETAIL

Extra soft armrest with decorative polished detail. Four-way adjustable – height, width, depth and angle.

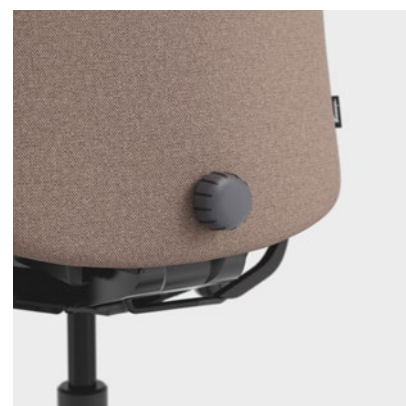

ADJUSTABLE SEAT DEPTH

With a lever on the left-hand side, you can easily adjust the seat depth. It is good to have 20 to 50 mm between the back of the knee and the seat for the best possible comfort.

ADJUSTABLE SEAT HEIGHT

You can easily adjust your seat height with a lever on the right-hand side. Adjust the height so that your feet are flat on the floor and your knees are in a 90-100° position.

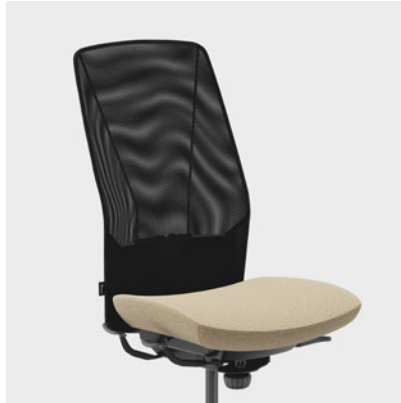

ADJUSTABLE BACKREST

The backrest height and angle can be adjusted using a knob on the back of the backrest.

SEAT WITH NOZAG SPRINGS

The seat has Nozag springs for good comfort. Nozag springs are wave-shaped steel springs that are cast into the seat frame. They provide good deep suspension and distribute the user's weight evenly across the seat.

MESH BACK

For a more dynamic look, you can choose a mesh back.

FOOTRING

Add a footring to a high gas spring to relieve legs and feet. It is attached around the gas spring and is variably height adjustable.

CASTORS

Choose between castors for soft or hard flooring.

GLIDE

As an option, you can get the chair with glides instead of a wheel base. A good choice for the higher gas springs.

STAR BASE

Black plastic star base with castors for hard or soft flooring.

ALUMINIUM STAR BASE SILVER

A robust and ergonomic cruciform base with a clearly marked support surface for your feet.

ALUMINIUM STAR BASE POLISHED ALUMINIUM

A robust and ergonomic cruciform base with a clearly marked support surface for your feet.

Colours & materials

Kinnarps Colour Studio (KCS) is our range of materials for offices, schools and healthcare facilities, with a focus on sustainability, quality and harmony. It offers attractive materials that have been carefully tried and tested for suitability and sustainability in different types of spaces. The wide range makes it easy to find the look and functionality you want. Wood, metal, plastic, and textiles, colours and patterns that are easy to mix and match with each other and the rest of the interior design. A well-thought-out range that provides a harmonised and sustainable overall impression, and makes it possible to choose the right material and the right colour for the right place and activity.
